### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Golladay on 6/12/07.

The application has been amended as follows:

In the claims:

In claim 1 line 11 after "during injection," --wherein the resistant barrier has a first position before injection and the first position is substantially maintained after injection; and— has been inserted.

### ***Allowable Subject Matter***

Claims 1-6,8-10 and 12 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a needleless syringe that includes a shock wave generator device, an application guide and a resistant barrier which is located entirely within the application guide and includes an upstream face and a downstream face having at least one blind cavity where the shock wave generator device is configured to deliver a shock wave to the upstream face of the barrier and the resistant barrier remaining fixed within the syringe during

injection wherein the resistant barrier has a first position before injection and the first position is substantially maintained after injection.

The prior art most similar is to Sanford (USPN 4,945,050); however, Sanford does not teach the barrier having a first position before injection and the first position being substantially maintained after injection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine S. Williams whose telephone number is 571/2724970. The examiner can normally be reached on Monday - Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas D. Lucchesi can be reached on 571/2724977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
